VERSA KEY™ MTI

Table of Contents

MTI

Access When It Counts

» Increase customer satisfaction by eliminating the need for employees to find a manager with a key.

» Empower your employees to provide exceptional customer service while providing managers with the control they need to drive accountability of store staff.

» MTI's Versa Key provides quick access to inventory through RFID technology.

Audible Alerts

» Audible alerts sound when the lock is left open or in an unlocked state providing a higher level of asset protection.

» In addition to the door open alarm, each lock will provide audible confirmation of RFID reads, door close and low battery state.

Valuable Insights

» All Freedom Smart Locks are compatible with MTI's Managed Access software platform providing centralized management and control of users.

» Provide managers with enhanced granular control over user access rules as well as insights about lock access activity (who, what, when and how long).

» Our systems can extend to secure your entire business footprint including building and door access.

MTI

Padlock

Flexible, Strong Security for Cages, Racks & Inventory.

MTI's Padlock offers all-steel interior, providing a strong, adaptable and portable security option to protect your most important assets, areas, and spaces.
