# INTRODUCTION

# Why MTI?

Introducing Sempro™ electronic locks, the cutting-edge smart locking technology within the MTI product portfolio. With over 45 years of industry leadership, MTI has mastered the art of safeguarding assets while optimizing operational efficiency.

Sempro Electronic Locks embody the essence of safeguarding assets while maintaining control. MTI's long-standing expertise seamlessly integrates with these cutting-edge locks, offering a comprehensive asset protection solution.

Our commitment to delivering superior security is reflected in the integration of advanced software capabilities with the proven technology of Sempro electronic locks. This expansion of the MTI product family empowers you to take precise control of your assets while ensuring their safety and security.

## Advanced Access Management

With MTI's innovative VersaKeys, you gain precision in access control. Seamlessly integrate Sempro locks with the MTI Managed Access™ platform, offering centralized management and in-depth insights into access events.

## Trusted Partner

MTI's commitment to excellence is the reason why businesses trust us for their asset protection needs. Our decades of experience ensure that your assets remain secure while you maintain operational control.

## Comprehensive Security

Trust in audible alerts, ensuring that locks are never left open or unlocked, fortifying your asset protection. Receive auditory confirmations for RFID reads, door closures, and low battery warnings, keeping you in complete control.
