THE MTI DIFFERENCE

Built To Last

Designed for high-traffic retail environments, MTI solutions are tested for durability and reliable performance.

Engineered In-House

Our U.S.-based teams design and refine solutions for real-world use, with improvements driven by field feedback.

Designed For Retail

Each solution balances security with customer experience - supporting clean merchandising and hands-on interaction.

Service That Scales

With nationwide field support and a 24/7 contact center, MTI ensures consistent installation and service.

Complete Solution

From hardware to software to support, our solutions deliver a seamless, scalable approach to retail security.

Pull Door and Drawer

Door and Drawer Locks

Easy to install, invisible to the eye, our Door and Drawer lock provide a small lock indicator to staff for easy access.

- Universal lock for drawers and doors internally mounted for a clean appearance.
- Discrete indicator on front of cabinetry.
- Access history and lock status with MTI Managed Access™ software platform

Twist Push Lock

Plunger lock for bypass doors

Designed for a wide variety of bypass style doors, plunger locks will enhance your aesthetic and security, while offering digital and scalable access.

- Unlock using MTI Versa Key™ RFID cards or fobs.
- Robust metal housing.
- Access history and lock status with MTI Managed Access™ software platform.

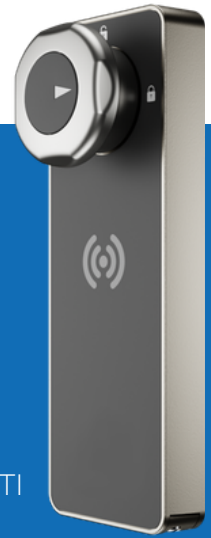

Twist Blade Lock

Aesthetic security for swing door fixtures

The MTI Blade Locks are designed to fit easily into new and existing fixtures. Multiple configurations are available to support any needs.

- Configurable for both clockwise and counterclockwise installations.
- An adaptable lock design for a variety of cabinets and drawers.
- Access history and lock status with MTI Managed Access™ software platform

Slide Push Lock

Simple security for bypass doors

Easy to install into new or existing fixtures, the Sliding Push lock uses a plunging mechanism to secure bypass glass doors.

- Slide Push Lock fits 1/8" and 1/4" thick doors.
- Audible alarms and alerts (including low battery state).
- Access history and lock status with MTI Managed Access™ software platform.

Slide Ratchet Lock

Security for bypass doors

Easy to install into new or existing fixtures, the ratcheting lock offers a sleek aesthetic which blends seamlessly into modern environment designs.

- Ratchet blade fits up to 6mm and 19mm thick doors.
- Audible alarms and alerts (including low battery state).
- Access history and lock status with MTI Managed Access™ software platform

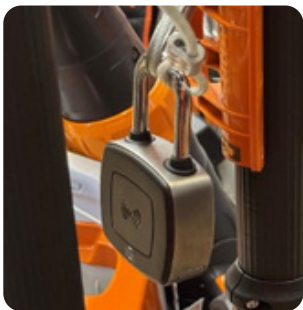

Click Padlock

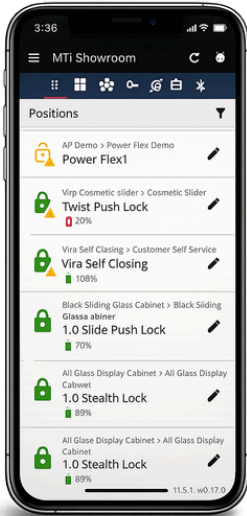

Padlock security for cages and racks

The MTI Click Padlock offers all-steel interior, providing a strong, adaptable and portable security option to protect your most important assets, areas, and spaces.

- Unlock using MTI Versa Key™ RFID cards or fobs.
- Robust metal housing.
- Access history and lock status with MTI Managed Access™ software platform.

Managed Access™

Real-time remote management

- Track device health and performance in real time.
- Set zones and access parameters across your store.
- Assign, pause, or revoke access in a single tap.

Compatible with:

Freedom Micro II®

Smart Locks

CX Flex™

Create a smart store ecosystem

Smarter tools, better results

- Centralize key management to eliminate rekeying costs.
- Automate permissions with timed key expiration.
- Control access by role, location, or device.
- Track and audit activity for full accountability.
